PROFILE

B.Sc. Computer Science graduate and aspiring Full Stack Developer with hands-on experience building responsive web applications using modern frontend and backend technologies. Skilled in HTML, CSS, JavaScript, Node.js, Express.js and SQL, with a strong focus on developing clean user interfaces and practical web solutions. Passionate about learning, problem solving and transforming ideas into functional applications.

TECHNICAL SKILLS

Frontend	HTML5, CSS3, JavaScript, Responsive Web Design
Backend	Node.js, Express.js, REST APIs
Database	SQL, Local Storage
Programming	JavaScript, Python, C++
Tools	Git, GitHub, Visual Studio Code
Core Concepts	Object-Oriented Programming, Problem Solving, Full Stack Development

PROJECTS

Expense Tracker

[View Live Demo](#)

HTML5 — CSS3 — JavaScript — Local Storage

- Developed a responsive expense tracking application for managing income and expenses through a simple and intuitive interface.
- Implemented automatic balance calculation and transaction management with the ability to add and delete transactions.
- Used browser Local Storage to persist transaction data between sessions.
- Designed a responsive layout for seamless usage across desktop and mobile devices.

Personal Portfolio Website

[View Live Demo](#)

HTML5 — CSS3 — JavaScript

- Designed and developed a personal portfolio website to showcase technical skills, projects, education and professional information.
- Built a responsive interface optimized for desktop, tablet and mobile screen sizes.
- Implemented an interactive navigation system with a mobile hamburger menu.
- Deployed the website online with a focus on clean design, accessibility and user experience.
